OBJECTIVE

Dynamic and results-driven **Angular Developer** with **2+ years of experience** in building scalable, enterprise-grade frontend architectures. Expertise in **Angular (v19)**, **JSON-driven UIs**, and **AI-powered smart modules**. Proven success in designing high-performance, reusable components, integrating **AWS S3** securely, and enhancing digital experiences. Passionate about **performance optimization** and clean code in agile, team-oriented environments.

EXPERIENCE

Software Developer

DigitalEDU IT Solutions PVT LTD

Aug 2025 - Present

Pune

- Designed a highly reusable **UI component library** supporting form-driven UIs via **JSON schemas**, declarative form rendering, and **super-grid** systems for advanced data interactions, boosting productivity.
- Delivered secure **S3** file upload capabilities via **pre-signed AWS** URLs, decoupling file I/O from backend dependencies .
- Integrated **Eazbuzz payment gateway** using a modular, **component-based** payment service, ensuring clean separation of concerns and ease of future payment provider swaps.

Junior Software Developer

Kalibroida Technology Solutions PVT LTD

Mar 2024 - Jul 2025

Pune

- Implemented **WebSocket** technology to enhance **real-time** data exchange, improving user engagement and system responsiveness.
- Integrated **RESTful APIs** with Angular services for seamless data synchronization and efficient API consumption.
- Designed and developed dynamic, **mobile-friendly** interfaces using **Bootstrap**, ensuring **cross-browser** and cross-device compatibility.

SKILLS

Frontend: Angular, JavaScript, TypeScript, HTML, CSS, Angular Material, PrimeNG, Tailwind, Bootstrap, Responsive Design, Lazy Loading, State Management, NgRx, Signals, Mobile-First Development, Reusable Component Development.

Backend: NodeJs, ExpressJs, MongoDB, Mongoose, RESTful AP, JWT Authentication, AI Integrations, JSON Data Handling, Web sockets, Cloudinary.

Architecture and Concepts: Microservices Architecture, API Gateway, Scalable Systems Design, State Management.

Tools and Platforms: Git, GitHub, Postman, VS Code, Linux (Ubuntu), Windows, Chrome DevTools, AWS S3, Cloudinary.

PROJECTS

EduNova

DigitalEdu IT Solutions Pvt. Ltd

EduNova is an AI-powered platform that streamlines academic and administrative workflows for higher education institutions.

- EduNova, an **AI-driven**, modular academic ERP platform for higher education, powering **13+ workflow modules** across admissions, academics, exams, and placements.

- Defined and implemented a **semantic theming** system, responsive UX architecture, and **smart form engine** integrated with **AI-powered** recommendations.
- Spearheaded the adoption of **Signal-based state management** and **real-time** data syncing, improving responsiveness and user personalization across the platform.

ImTransporter

Kalibroida Technology Solutions Pvt. Ltd

Scalable Porter-like logistics platform with real-time tracking, secure APIs, and an intuitive Angular frontend

- Designed a clean **MVC architecture** for the backend using **Node.js** and **MongoDB**, ensuring maintainability and horizontal scalability.
- Established real-time communication using **WebSockets**, enabling asynchronous tracking workflows integrated seamlessly into the **Angular** frontend.
- Secured the platform with **JWT-based authentication** combined with **role-based access control (RBAC)** for granular permission management.
- Built and documented standard **RESTful APIs** and integrated them end-to-end within the Angular application.

EDUCATION

Master of Computer Application

2022 - 2024

Dy Patil Institute Of Master Of Computer Application And Management, Akurdi, Pune

CGPA: 8.21

Bachelor of Computer Application

2019 - 2022

Arts, Science P. O. Nahata Commerce College, Bhusawal

Percentage: 87.67

CERTIFICATIONS

- MERN Full-Stack Development Apna College.
